

LeMoyne-Owen College Aspiring Magicians Program

July 5TH - Through August 3rd
2017
8:30 A.M. - 12:30 P.M.

LeMoyne-Owen
COLLEGE
LEADERSHIP. OPPORTUNITY. CHANGE.

Let LOC Get You AMPed About Your Freshman Year Academic Success!

Attending college is a huge decision that can come with high expectations, and for some, anxiety. Here at LeMoyne-Owen College (LOC), our faculty and staff want to ensure that our incoming freshman have every opportunity to become acclimated with all aspects of the collegiate environment. To aid in the transition from a high school to a college setting, LOC offers an exciting and informative summer program. The LOC Aspiring Magicians Program (AMP) is a **free**, four-week program providing academic preparation, individualized academic advising, and personal growth and development in an intensive yet nurturing environment. From **Wednesday, July 5th - Thursday, August 3rd**, students will:

- Take College Bridge coursework in preparation for the Fall 2017 semester
- Connect with faculty, staff and students and adapt to college life to build a foundation for academic success
- Strengthen academic skills while developing a peer support network
- Learn study skills, academic strategies and life skills that will aid in students' organization and focus
- Earn the opportunity to receive LOC college credit and get ahead for the freshman year
- Receive priority advising and registration for the Fall 2017 semester

To register, go to www.loc.edu/amp or call Toneyce Randolph at 901.435.1743.

Due to limited seating, we can only accommodate students who have been accepted to the College and are registered for the program. The deadline to register is Monday, June 19, 2017.

How Can I Succeed In College?

ATTEND CLASSES

According to the Educational Policy Institute, students who skip classes increase their odds of dropping out of school by 250%.

STUDY MORE HOURS

Research has shown that the most successful students study at least 20 hours a week. Manage your time so that you have the opportunity to study at least 20-30 minutes at a time.

USE TUTORS

College classes can be harder than anything you experienced in high school, which is why colleges offer free tutoring for students. Seek help from tutors who have taken and successfully passed courses you need help with.

JOIN A STUDY GROUP

Research suggests that students who study together perform much better in class.

Please note...

While this is an optional program, participation is **STRONGLY RECOMMENDED** for all incoming freshman.
